QUEBEC, Oct, 3d, 1860. The Steamship North America, via Londonderry with Liverpool dates to the 21st ult., has arrived here. The entente cordiale between Garibaldi and King Victor Emmanuel is in a fair way to be interrupted. The latter objects to the capture of Rome, and the former insists and demands the dismissal of Cavour. The only hope of avoiding a rupture is the Pope's abandonment

of Rome. A collision with the French troops is also feared. Not a single Papal battalion is outside of Ancona. Lamoriciere was defeated, but not dishonored, as he was greatly outnumbered.

For the Journal. Clear the Track. A meeting of a portion of the citizens of Robeson county

was held at the Court House at Lumberton, on the 1st day of September, A. D., 1860. On motion, R. E. Troy, Esq., was called to the Chair, and W. S. Norment requested to act as Secretary.
Col. N. A. McLean explained the object of the meeting in a few very appropriate remarks, stating that we had met

together for the purpose of making arrangements to give our friends a barbecue on the arrival of the cars at our village. On motion of T. J. Morisy, Esq., the Chair appointed a Committee of five, consisting of Giles Leitch, J. P. Fuller, Committee of five, consisting of Giles Leitch, J. P. Fuller, T. J. Morisy, Owen C. Norment, and N. A. One of the humanitarian movements of our times, although little known as such, can hardly be over estimated in its importance upon the well being of our widely scattered comnunities. The population of the American States is in many sections so sparse, that skilful Physicians are hardly available to them. Vast numbers of our people, are obliged to employ in sickness, such medical relief as they can hear of from each other, or indeed any they can get from any quarter. Hence arises the great consumption of Patent Medicines among us, greater by far than in any of the old countries, where skilful physicians are accessible to all classes. Unprincipled men have long availed themselves of this necessity, to palm off their worthless nostrums, until the word has become synonimous with imposition and cheat. One of our leading Chemists in the East, Dr. AYER, is pursuing a course which defeats this iniquity. He brings not only his own, but the best skill, of our times to bear, for the production of the best remedies which can be made. These are supplied to the word, in a convenient form, at low prices, and the people will no more buy poor medicines instead of good, at the same cost, than they will bran instead of flour. The inevitable consequence of this is, that the vile compounds that flood our country are discarded for those which nonestly accomplish the end in view, - which cure. Do we over estimate its importance, in believing that this prospect

WHEN ARE YOU GOING TO WILMINGTON ! OUR friends in the country will be visiting Wilmington during the Fail and Winter, for the purpose of selecting Clothing for every day and Sunday wear. And in more than one instance, a wedding suit will be wanted. We unhesitatingly give it as our opinion, and advise the readers of the Journal accordingly, that they will find the most desirable stock-the best made-the most approved cut, and, in THE PRINCE OF WALES, short, the most desirable Clothing of all qualities-from the finest to the coarsest -- at BALDWIN'S Mammoth Clothing | All new styles, at 34 Market st. House, 38 Market st. Mr. B. directs and superintends the making of all the Clothing he offers, and guarantees every garment perfect. This is one of our best Southern houses, and deserves the patronage of our people.

In addition to outer wear, we noticed the largest assortment of Under Garments we have ever seen in a Southern house, and the prices were certainly reasonable. The extensive assortment of Trunks for Ladies and Gen-

tlemen is very attractive, and we are informed from a very reliable source, that BALDWIN sells Trunks superior in make to any others in Wilmington, and at prices ten to twenty per cent. below smaller dealers. He keeps a large Trunk Wareroom filled with new styles Trunks and Bags, outside of his Store on Market Street.

Unhesitatingly, we recommend our readers to patronize BALDWIN for articles in his line. You will get what you bargain for, and at a fair price. All articles are as represented. Such is our experience, and we cheerfully give it pro bono publico.

There seems to be no enquiry for either grade except Common, and the sales have been confined to a few small lots of No. 2 at \$1 121 a \$1 15, and low No. 1 at \$1 30 to \$1 50 per bbl. For the Common article the market ruled quiet at unchanged prices up to Tues-

day, when there was more animation in the market, and sales were made at an advance of 5 cents. The advices received from the Northern markets have proven favorable, and at the time of closing our report quotations have an advancing tendency;—the market, however, is in an unsettled condition, holders having advanced their figures above the views of buyers. The last sales reported were at \$1 10 per 310 lbs., but there are few or no buyers at present at this figure. We quote sales as follows:

The market is well supplied with ordinary quality, and rules decidedly dull, as there is scarcely any demand except for Orders promptly and faithfully executed. N. Y. bbls. No sales worthy of note have been reported. and we quote second hand as nominal at \$1 25 to \$1 35 for lots as they run, and \$1 80 to \$1 85 for selected. The stock of N. Y. bbls. is rather light, and we note some enquiry. Small sales have been made at \$2 10 a \$2 15 each for second hand and new. market is poorly supplied. We quote small sales from the granaries at 95 cents to \$1 per bushel. DRIED FRUIT-There is but little demand at present, and only prime quality can be sold. We quote apples nominal way & Co. ly at 33 to 33 cents, and peaches 5 to 6 cents for unpeeled. and 8 to 10 cents per lb. for peeled. FEATHERS-Are scarce, and wanted. No sales that we hear of, and we quote nominally at \$6 25 to \$6 50 for pine, and \$7 75 to \$7 74 for oak bbls. FLOUR-The market during the past week has ruled inactive for State brands, and nothing of consequence has transpired in the way of sales. The arrivals by railroad have

been light, and there is only a moderate stock in store, still the demand is limited. We quote sales of only one or two small lots from store at \$7 50 for superfine-the market closing dull, with a declining tendency in prices. GUANO-There is a moderate stock on market, and only light demand exists. We quote small sales from store at the ollowing prices: No. 1 Peruvian \$60; Reese's Manipulated \$52; American \$40, and Sombrero \$35. We quote Superphosphate of Lime at \$50, and Land Plaster \$10 per ton. GRAIN-The Corn market has ruled unusually dull since our review of Wednesday last, and prices have materially declined-being 8 a 10 cents lower than last quoted. A present the market is overstocked, and there is merely a retail demand, and in consequence dealers show no disposition to operate further. The cargoes left on the market at the time of making up our last review, were sold as follows: 1,500 bushels from Hyde county at 65 cents; and 2,440 do. from Perquimans at 671 cents, 60 days. Since then we notice the receipt of 18,920 bushels, of which 1,920 came to order, and has gone into store, and of the balance sales have

been made as follows: 2,700 bushels from Gates county at 671 cents, 90 days; 1,900 do. from Perquimans at 67 cents, 60 days; 1,400 do. from Hyde at 60 cents, 60 days; 900 do. do. at 55 cents, cash; and 1,350 do. do. at 60 cents cash; the latter being taken for another market. The balance remains unsold, and closes decidedly dull at 55 cents per bushel for Hyde county.—OATS—Are in moderate stock, and only a retail demand exists. A lot of 300 bushels was received from Hyde county on Monday and sold at 41 cents per bushel, 60 days.——Peas-No late receipts, and consequently we have no transactions. The stock is getting rather low in the absence of arrivals, and is only about sufficient for present purposes. Quotations in table are merely nominal. - Rice-For clean there is a brisk demand, and but little on market. A lot of 40 casks was received from Charleston a few days since, which went into store, and is about sold off at 52 cents per lb. In the rough article we have nothing to report, as none has yet been brought to market. Harvesting has been progressing for a few weeks. and planters have the larger portion of their crop now gath-

ered, and we learn that the yield will be as large if not larger than that of the previous year. HAY - No receipts; there is, however, a fair stock of former arrivals in the hands of dealers, and only a light demand. See table for quotations. LIME-Is in fair demand, and there is only a light stock

on market. Selling from store at 90 to 95 cents per cask for common lump. Molasses-There is a moderate stock of Cuba in first hands, and only a light business doing at 24 a 26 cents per Worth; with 1300 bushels corn. gallon, in hhds. For quotations of other descriptions wa refer to our table.

POTATOES-Are in moderate supply, and rather dull of sale. Sale on Tuesday from wharf of 68 bbls. Irish at \$2 } bbl. We quote Sweet at 70 to 80 cents per bushel. PROVISIONS .- No receipts of N. C. cured Bacon for the past week or two, in the absence of which the stock has become quite low, and is not sufficient for the retail demand. No sales have been reported except a lot of 1500 lbs. on Thursday at 124 cts. for sides and shoulders. We quote zaux; with 2,000 bbls. rosin. nominally at 13 to 131 cents for hog round, and 15 to 151 cents for hams, which could be readily obtained for a bright and clean article. The market at present is moderately supplied with Western cured, and has ruled rather dull for the week. We quote sales at 11 to 114 cents for shoulders, and 13 to 134 cents per lb. for sides, as in quantity and quality. LARD. We have nothing new to report in the narket for either N. C. or Western make; the stock continues light, and we notice a fair demand for retailing purposes. See table for prices .- PORK .- There is a moderate supply of Northern on market, and only a light demand exists. Sales from store have taken place during the week

at quotations in table. SALT .- The market is poorly supplied with all kinds, and rules steady. To Philadelphia and Boston prices remain unchanged, and we refer to our table for last figures

rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restora-During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock near the roadside, from which my head received a most terrible blow, causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was finally destroyed over the entire surface of the head. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and, as I thought, understanding the nature of the disease, but was finally de-

Two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you my most sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself to say, is not a little. You can publish this, if you think prope
